

My School Co-operative Nursery School

Anaphylaxis Emergency Plan for: _____

Location of Epi-pen/ Allerjet: _____

This child has a potentially life-threatening allergy (anaphylaxis) to:

- Peanuts
- Tree Nuts
- Egg
- Milk
- Latex
- Medication _____
- Insect Stings _____
- Other _____

Food: The key to preventing an anaphylactic emergency is absolute avoidance of the allergen. People with food allergies should not share food or eat unmarked / bulk foods or products with a "may contain" warning.

Epinephrine Auto-Injector ("EpiPen"): Expiry Date _____

Location of Auto-Injector(s): _____

- Dosage:**
- EpiPen Jr 0.15mg
 - EpiPen 0.30mg
 - Twinject 0.15mg
 - Twinject 0.30mg

Asthmatic: Child is at greater risk. If child is having a reaction and has difficulty breathing, give epinephrine auto-injector **before** asthma medication.

A person having an anaphylactic reaction might have ANY of these signs & symptoms:

- **Skin:** hives, swelling, itching, warmth, redness, rash
- **Respiratory (breathing):** wheezing, shortness of breath, throat tightness, cough, hoarse voice, chest pain/tightness, nasal congestion or hay-fever-like symptoms (runny itchy nose & watery eyes, sneezing), trouble swallowing
- **Gastrointestinal (stomach):** nausea, pain/cramps, vomiting, diarrhea
- **Cardiovascular (heart):** pale/blue colour, weak pulse, passing out, dizzy / light-headed, shock
- **Other:** anxiety, headache, feeling of "impending doom"

Early recognition of symptoms & immediate treatment could save a child's life.

Act quickly. The first signs of a reaction can be mild, but symptoms can rapidly worsen:

- 1) **Give epinephrine auto-injector** at the first sign of a reaction occurring in conjunction with a known or suspected contact with allergen. Give a second dose in 10 - 15 minutes or sooner **IF** the reaction continues or worsens.
- 2) **Call 911:** Tell them a child is having a life-threatening allergic reaction - use the word "anaphylactic". Request an ambulance immediately.
- 3) **Call contact person**
- 4) **Escort child in ambulance** and remain with child until parent arrives.

Emergency Contact Information
